

STOP THE MASTS

Make sure you get
your objections in
now

A developer is proposing to put **mobile phone antennae ('masts')** and other clutter onto the roof of Chiswick Nursing Centre (red brick building) on Ravenscourt Gardens. Did H&F Council let you know?

- It would make the skyline look distorted. It would look totally out of place for a residential area in the Ravenscourt conservation area and could affect property values.
- Several homes, a number of schools and the Ravenscourt Park recreation ground where children play are in range of the proposed masts. This is important as young people's bodies are still developing and they are more vulnerable to mast radiation effects. A Chief Medical Officer has called for minimising their exposure.

Yet the developer did not feel that local schools within range were worth consulting!

- Trees and other greenery within range would suffer the harmful effects of radiation. They are a key part of the character of the area and provide environmental benefits.

HAVE YOUR SAY...

• H&F Council invite comments online on <https://bit.ly/4e8Gzj0> / to planning@lbhf.gov.uk
Please make sure you **at least** object to the visual impact of the masts on the building and the conservation area – this will count. Also the damage that will be caused to trees in the area. For more information about the proposal – tips and a **quick link for objecting by email** - visit our webpage www.saynoto5g.uk/ravenscourt.htm.

• You might also be able to post your objection to George Shakir, Planning Officer, Development Management, LB Hammersmith & Fulham, King Street, London W6 9JU.

• Please quote ref: **2024/01017/FUL** in any objections, and get them as soon as possible.

SUPPORT OUR WIDER CAMPAIGN TO MAKE H&F SAFER...

H&F **Say No To 5G** campaign was set up in 2019 to stop the spread of mast radiation that's bad for us, animals & the environment. Visit www.saynoto5g.uk.

We also support the important crowd-funded national legal action actionagainst5g.org - the appeal is still open for donations.

For urgent enquiries and offers of help, email w6.01017@saynoto5g.uk or ring 07976-414913.
