

Welcome to the Hammersmith & Fulham
HALL OF SHAME:

These are just the worst readings of mast radiation (EMR) taken locally.
 Compiled to 15 Dec 2023 from readings taken in 2020/23. All readings
 are given in milliVolts/metre, and are well above [recommended limits](#)
 for prolonged exposure (600mV/m, Council of Europe, 2011)
